

WACO KWIKFORM

Safe Engineered Access Solutions

Together, we can build for the future.

Waco Kwikform - who we are
and how we can help you.

Together, we're capable of anything.

WACO KWIKFORM

There's never been a more important time to get it right. As a leading provider of access solutions to the Australian and New Zealand construction and industrial sectors, Waco Kwikform has the know-how and experience you can count on to get it right, first time, every time.

We handle projects of all shapes, sizes and budgets – from the very large to the urgent small ones. As a subsidiary company of Waco International, with operations across many countries, we can also draw on global expertise as well as our own local knowledge and skills. Come to us if you are after dependable:

- Access – scaffolding, rope access, mast climbers and more
- Engineering and design services
- On-site labour, including project management personnel
- Specialist site services such as rigging, painting and blasting

OUR VISION

To be your most trusted partner in safe, engineered access solutions, helping our customers and communities to prosper and grow.

SAFETY IS A BUILT-IN FOUNDATION

Regular training, certifications and safe systems of work have all contributed to our company achieving a solid track record of delivering works in a safe manner.

- Waco is eager to work with clients to meet site-specific safety expectations and needs for complex, high-risk works.
- We work hand-in-hand with regulators to ensure continual improvement within the industry. This close relationship helps bring about improved working interactions and outcomes.
- Our team continually reviews our safety approach based on new technologies, lifting the bar by improving safety standards across all sectors.
- Waco is pursuing the use of cutting-edge technology in assuring organisational governance in all jurisdictions and our Safety Management System is being revised to push the envelope of best practice.
- We achieved certification to AS/NZS 4801 in 2013 for which a rigorous and systematic external audit program assures a high level of continued governance over our WHSE processes.

OVER 35 YEARS EXPERIENCE

Since 1984, the Waco name has been synonymous with quality, safety and service excellence - that's why we're the preferred supplier to some of the most respected construction and engineering companies in Australia.

Waco has proven experience gained over many years in successfully completing projects all over the country. Furthermore, we are one of the few companies in Australia to be able to handle very large scale projects with a high degree of complexity.

EVERY CHALLENGE MET

Yes, we're a recognised industry leader. And even more importantly to us, we have a high percentage of repeat business - as we overcome obstacles and come up with solutions to get the job done well, every time.

Relationships mean everything to us, as does maintaining our reputation for delivering outstanding work.

YOUR NEED – OUR SPECIALTY

Access – We're experts at providing and assembling temporary structures to support a work crew and materials to aid in the construction, maintenance and repair of buildings, bridges and all other structures.

Collaboration helps us achieve great outcomes.

LOCAL SUPPORT AND NATIONAL REACH

We understand that a local footprint is advantageous for companies needing temporary access solutions, as cost-effectively and quickly as possible. That's why Waco has invested in a network of over 26 branches and 5 regional distributors across Australia and New Zealand.

Our wide service coverage is backed up by the most extensive inventory of scaffolding equipment in Australia - over 70,000 tonnes - so you won't be left short. We are able to provide a package of bespoke engineering and design, product hire and labour services, meaning you don't have to sub-contract multiple suppliers. Any time, anywhere; Waco can deliver.

STRONGER TOGETHER

Waco is built on a strong service culture. Our teams work together with our clients to collaboratively problem-solve with the aim of achieving a strong result that's fit for purpose, on or ahead of time, and on or under budget.

When you choose Waco, you partner with knowledgeable, friendly and proactive design, product and technical teams. Our clients tell us they find us easy to work with, and we always strive to find the best and most suitable access solution to meet your needs.

WE DON'T CUT CORNERS ON QUALITY

We scaffold for the short-term and build for the long-term. At Waco, we don't just talk about our commitment to quality and safety - we prove it. Our commitment is reflected by the stringent quality controls we have in place, the exacting performance standards we impose on our people and products, and in the way we operate our branches.

Waco is fully compliant to:

- AS/NZS 4801; with Third Party Certification of our Safety Management System
- AS/NZS ISO 9001:2015; with Third Party Certification of our Quality Management System
- Australian Standard AS1576 for all Waco-manufactured products
- The Achilles Oil & Gas supply chain (registered and audited member)

Whatever your market, we can be there for you.

COMMERCIAL CONSTRUCTION

For commercial construction, Waco's very practical sales and technical teams can provide a complete, packaged solution, project-managed from beginning to end. Many of the commercial structures we deal with are complicated and require a highly-engineered, custom design – and that's when our in-house engineering team proves invaluable. Our expertise covers:

- Retail buildings
- Commercial offices
- Aged care and health facilities
- Hospitals
- Government buildings
- Schools and universities
- Industrial buildings
- Residential - high and lower rise

We also offer bespoke solutions for more niche projects, including facade maintenance and repair, combustible cladding removal and demolition jobs.

RESIDENTIAL

Waco Kwikform can supply and erect fully-engineered access solutions for residential buildings in Australia and New Zealand. We handle all types of projects from single-level houses to residential towers. Our teams are also being chosen more often to undertake unit block repair and maintenance. We have a proven track record of delivering exceptional results for our clients, many of whom are long-term customers.

INDUSTRIAL

Waco knows the industrial sector. We have the capacity to provide design, product and technical support to industrial projects of all sizes, with extensive experience servicing the following industries:

- Infrastructure
- Power Generation
- Mining and Resources
- Oil and Gas
- Refineries, including tanks
- Wharves and shipping
- Dairy Plants

Clients around Australia are currently receiving the benefits that our professional teams are providing in fixed term maintenance contracts, shutdowns and outages, construction projects and ad-hoc maintenance requirements.

Waco constantly seeks out new product innovations and methods to increase safety and productivity in the services we provide. Utilising experience from our global network, we're committed to providing the very best industrial scaffolding, rope access, rigging and encapsulation services on offer. For plant shutdowns, we collaborate with our client's maintenance engineers or work closely with our own dedicated, professional shutdown teams.

CIVIL WORKS

Waco utilises experience from our global network with a focus on best practice, and is regularly contracted to provide essential scaffolding solutions to civil works projects across the country. The Waco commitment to quality and innovation, along with an uncompromising focus on safety and efficiency, has seen us become the preferred scaffolding supplier for a range of leading civil engineering firms.

EVENTS ACCESS

We play our part in the success of your event. No matter how large or small our scope of work, we have the skills, equipment and capacity to meet your temporary access requirements - within budget and on time. We've been involved in many of the iconic Australian sporting events over the past twenty years, including the Melbourne Cup, Formula One Grand Prix, V8 motor races, and other smaller specialty sporting events. We put in and then bump-out public access stairs and handrails, erect scaffold platforms and other structures for broadcast, commentary and performance, and handle all other elements needed for staging high-quality events.

Products and services to make a real difference.

PRODUCTS FOR A WIDE RANGE OF REQUIREMENTS

Waco manufacture, hire and sell a wide range of high-quality access solutions – all produced and maintained to the highest standards and in accordance with the requirements of AS1576.

As an original equipment manufacturer, we ensure that it is maintained to the original product specification, and our hire equipment is thoroughly inspected, cleaned and, where necessary, repaired or refurbished after every use, before it's returned to the dispatch area for the next project.

WACO ACCESS SOLUTIONS

Our proven modular scaffold systems are brand leaders and our wide range of services have helped shape today's temporary access industry.

For projects of all shapes and sizes, we can provide an access solution that is safe, economical and easy to erect. All Waco modular systems offer a broad range of complementary components, which allow us to provide a complete solution – including suspended scaffolds, stair towers, safety gates, heavy duty loading bays, bird cages and internal or external tank scaffolds.

SPECIALIST SITE SERVICES

Waco believes that good preparation leads to great results – and our additional site options cover all the bases. Rope access, rigging, encapsulation, hoardings, painting and blasting are just some of the extra site services that we provide to ensure that all of your essential on-site needs are covered.

ENGINEERING AND DESIGN

We have an experienced in-house engineering and design team that is supported by a national network of estimators and drafters. We have the capacity to provide safe and practical temporary access, along with high quality equipment and first-class technical support to the largest of projects.

LABOUR SUPPLY

Waco provides on-site teams to the construction, industrial and resource sectors, offering highly skilled and experienced trade and management personnel for projects right across the country. Working in conjunction with the client's personnel and other trades teams, we have a proven track record of delivering temporary access solutions for the long run – all in a safe, efficient, and cost-effective way.
